

Major/Minor Elective Course Modification Form  
(To be used only for elimination/substitution of major/minor electives)  
Updated Fall 2024

Directions: Due to the substantial change in staffing that Wittenberg University will experience beginning in the 2026 academic year, the EPC will consider the elimination/substitution of electives tied to majors and minors. The EPC will consider and approve these modifications, work with the requestor and the faculty. Programs are encouraged to streamline elective options to increase students taking courses- if possible. Modifications to Major/Minors (including number of credits and required courses)

a. What is the rationale for these changes?

b. If electives come from a different department, has contact from that department been made? Please provide the evidence of collaboration.
